Imus, Cavite, Philippines | +639763692053 | jezmmmit@gmail.com | [Jesma Amit](#) | [LinkedIn](#)

SUMMARY

CompTIA Security+ and Microsoft AZ-900 certified Electronics Engineering student with a specialization in Advanced Internet Protocol Networking. Strong foundation in cybersecurity, cloud computing, and network security. Passionate about blue team operations, SOC analysis, and threat detection. Experienced in AI and IoT security-focused projects.

WORK EXPERIENCE

FiveM Gaming Community

Aug 2024 – Feb 2025

Anti-Cheat Moderator (Freelance)

Remote

- Monitored player activity and investigated security incidents such as cheating, exploiting, and rule violations.
- Analyzed server logs and anti-cheat tools to identify suspicious patterns and behaviors.
- Documented findings and collaborated with admins to develop mitigation strategies and update detection rules.
- Gained hands-on experience in threat intelligence, log analysis, and incident response workflows in a high-traffic, real-time environment.

EDUCATION

Mapúa University

Aug 2021 - Present

Bachelor of Science in Electronics Engineering.

Specialized in Advanced Internet Protocol Networking

- GWA: 2.1 out of 5 scale
- **Board Auditor / Treasurer** – Institute of Electronics Engineers of the Philippines MUSC
- Expected Graduation: 2025

PROJECTS

Real-Time Interactive Tutoring Filipino Sign Language (FSL) Device

- Developed an AI-powered system using SVM and CNN, achieving 94% recognition accuracy.
- Awarded **Best Presenter** and **Best Poster** at the 56th EECE Thesis Colloquium.

ESP8266-based Smart Attendance System with Google Sheets and Email Integration

- Designed an IoT solution using ESP8266 microcontroller to automate attendance tracking.
- Integrated real-time data logging to Google Sheets via Google Apps Script API.
